

2020 GRADES 6-12 ADVANCED ENGLISH SUMMER READING RECOMMENDATIONS

Our goal is to promote choice in reading and immerse students in texts that will engage them in thinking critically about the world. Teachers and librarians selected titles that represent a variety of voices, cultures, and perspectives. We recommend students read at least one book off this list or any other book that piques their curiosity. Students do not have a required assignment to complete over their book prior to school starting. However, they should be prepared to discuss their summer reading choices with classmates and teachers when school begins.

We encourage parents and students to read online book reviews to help make the best reading selections for your family. We highly encourage students and parents to read together!

The following online resources provide book summaries and reviews:
