October is

**National Bullying
Prevention Month**

A lot of teens describe bullying as...

“When someone tries to make you feel less about who you are as a person, and you aren’t able to make them stop.”

What Is Bullying?

Bullying is typically defined as when...

- A person is being hurt, harmed, or humiliated with words or behavior
- The behavior is repeated or there is a concern that it will be repeated
- The behavior is being done intentionally
- The person being hurt has a hard time stopping or preventing the behavior
- The hurtful behavior is carried out by those who have more power, such as students who are older, are physically bigger or stronger, have more social status, or form part of a group that singles out an individual

Who Is Involved?

TARGET	STUDENT WHO BULLIES	WITNESS OR BYSTANDER
Person who is being bullied	Person whose actions cause hurt or harm	Person who sees or knows of the behavior

Note: "Person" may mean an individual or a group of people.

Can Someone Be Involved in More than One Role?

Yes! It's often the case that the person being bullied, the person doing the bullying, and the person witnessing bullying are not distinct parts! It's more common that students play multiple roles throughout the day.

Students

During instructional time, learning is your priority, not your electronic device.

Teachers

Will communicate their expectations for electronic devices during instructional time.

Students

If you choose to use your electronic device during instructional time **without** teacher permission, it can be taken up and turned in to the office.

If you fail to follow the expectations for electronic devices during instructional time & refuse to relinquish your device, you may receive administrative consequences.

From the SCUCISD Student-Parent Handbook

The district permits students to possess personal cell phones; however, these devices must be put away and on silent during the instructional day unless they are being used for approved instructional purposes.

The use of cell phones or any device capable of capturing images is strictly prohibited in locker rooms or restroom areas while at school or at a school-related or school-sponsored event.

If a student uses a telecommunications device without authorization during the school day, the device will be confiscated. The student/parent may pick up the confiscated telecommunications device from the administration's office. Students may be assigned disciplinary consequences.
