Students

During instructional time, learning is your priority, not your electronic device.

Teachers

Will communicate their expectations for electronic devices during instructional time.

Students

If you choose to use your electronic device during instructional time **without** teacher permission, it can be taken up and turned in to the office.

If you fail to follow the expectations for electronic devices during instructional time & refuse to relinquish your device, you may receive administrative consequences.

From the SCUCISD Student-Parent Handbook

The district permits students to possess personal cell phones; however, these devices must be put away and on silent during the instructional day unless they are being used for approved instructional purposes.

The use of cell phones or any device capable of capturing images is strictly prohibited in locker rooms or restroom areas while at school or at a school-related or school-sponsored event.

If a student uses a telecommunications device without authorization during the school day, the device will be confiscated. The student/parent may pick up the confiscated telecommunications device from the administration's office. Students may be assigned disciplinary consequences.
