CAREER & TECHNICAL EDUCATION PATHWAYS

Levels*: refer to the recommended order for stackable knowledge and skills a student should obtain as they progress through the sequence. They do not represent grade bands and there is flexibility in how districts can offer courses between levels. Local Implementation Considerations:

**Students completing two or more courses for at least two credits within a program of study earn concentrator status for Perkins V federal accountability reporting.*

**Proposed Indicator: Students finishing three or more courses for four or more credits with one course from level 3 or 4 within a program of study earn completer status for federal accountability reporting.*
