

Dear Parents,

Addressing social-emotional learning needs is a critical focus for our school and district, especially during these unpredictable times. In an attempt to hear from our Eagles, we will be asking for your child's feedback via an online survey that can be completed at **home** through an online platform called Panorama

Panorama is SCUC ISD's universal screener that is given three times per year to all students in grades 3 through 12. Most students are familiar with this survey, as it was administered last year to assist teachers with planning for intentional social-emotional instruction. The screener results also allow staff to measure students' Social Emotional Learning growth throughout the year.

Sometime between September 8 and September 18, please help your student log on to the survey following the steps below:

1. The student will visit the secure website at: <https://surveys.panoramaed.com/schertzcibolo>

Alternatively:

2. Students will use their student ID# without the leading zero as their unique access code. This is the same number that your student uses for their lunch number.
3. Please note that each access code (student ID#) can only be used for one student. The access code is automatically disabled after a student submits his or her survey(s).
4. There will be two surveys to complete.
5. Click start survey (green button) for the Student SEL Competencies. Once the first survey is complete, hit submit.
6. Click start survey (green button) Support and Environment for second survey.

Thank you for partnering with us as we work to provide an emotionally safe learning environment for our Eagles!

In your service,

Tina Curtis, Principal

Robert Oswald, Counselor
