

Describe any summer work experience, work or study that has been of significant importance to you.

Which course have you enjoyed the most? What do you choose to learn about on your own?

Is your high school transcript an accurate measure of you ability and potential? If not, explain any special circumstances that have negatively affected your performance in school. What do you consider the best measure of your potential for success in college work?

What else should I know to help me promote you as a job or college applicant? (special summer experiences, home projects, community service, special/hidden talents, special passions)

What do you consider to be your greatest strengths?

What do you consider to be your greatest weaknesses?

Is there any other information you would like to share with your counselor so that he/she can make an accurate appraisal of you to college and universities?
