

Counselors' Corner!

Welcome to Steele Counselors' Corner! Here, you will find helpful information and resources to assist you in your personal growth and development. Our team of experienced counselors is committed to providing a safe and supportive environment for all students. Whether you are struggling with academic or personal issues, we are here to help. Our services include individual and group counseling, academic advising, career guidance, and much more. We understand that seeking help can be difficult. That's why we strive to create a welcoming and inclusive environment where all students feel comfortable and supported. We are here to listen, offer guidance, and help you navigate any challenges you may be facing.

Course Selections

The course selection process for the 2024-25 school year is officially underway. Counselors have already met with juniors and sophomores. We will begin meeting with our ninth graders starting this month! During this time, students will get together with their counselor to map out their course selections based on what they need to graduate and what they want to learn. After the meeting, students will receive a copy of their course selection and a second copy will be sent out later in the year, giving them a chance to switch things up if they want to. We won't meet with students for a second time until everyone has had a chance to meet with us at least once. With 600 students each to meet with, it's a must! We highly recommend you dive into all the details beforehand and chat with your child about their course options, so they can make the most of this exciting opportunity.
