

Photography Scavenger Hunt

OBJECTIVE: You and a partner need to capture a minimum of 10 photos to prepare a presentation in the form of a Power Point or through Movie Maker.

PLAN: Over the next 2-3 days in class we will meander through the walls and outside of the school building to take photographs. These photos will be planned and will take advantage of the use of the composition of photography. You and your partner will want to take at least 10 photographs to prepare a presentation. You will also have access to Photoshop Elements 7.0 on the classroom computers, so that you may enhance your photos before moving them into the presentation.

SUGGESTED PHOTOS:

Backlight	Side Light	Horizontal Photo	Vertical Photo
Diffused Light	High Angle	Low Angle	Level Angle
Motion	Emotion	Framing	Repetition
Leading Lines	Contrast	Rule of 1/3's	Reaction

GRADING: You and your partner will be assessed based on having 10 photos prepared and labeled based on the suggested photos. Presentations will begin on _____.

Be creative, be artistic and allow opportunities for both people to make use of the camera equipment.
